What is this Product ?

Type

The Product is a sub-fund of Gekko Fund SICAV, a public limited liability company (*société anonyme*), incorporated as a "*société d'investissement à capital variable*" under Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

The lifespan of this Product is not limited.

Objectives

The objective of the Product is to increase its net assets by investing in international high dividend equities without capitalization, sector or geographical restrictions and offering dividends in excess of the market average. The exposure to issuers domiciled in emerging markets will not exceed 30% of its net assets.

The Product may invest up to 10% of its net assets in UCITS or other eligible investment funds.

The Product may use financial derivative instruments to achieve its investment objective in accordance with the restrictions and limits set out in the prospectus, "Investment Objectives, Policies and Restrictions". Such instruments may also be used for the purpose of hedging. The Product is actively managed, and the portfolio management of the Product is not made in reference to a benchmark. The index S&P Global Dividend Aristocrats Index is used for performance comparison purposes and for the calculation of the performance fee.

The investments underlying this Product do not take into account the EU criteria for environmentally sustainable economic activities.

Income allocation : Accumulation

Intended retail investor

The Product is intended for private and institutional investors with a long-term investment horizon who are capable of understanding the specific risks associated with an investment in the Product including the volatility risk inherent in international equities.

What are the costs ?

The person advising on or selling this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario

- EUR, 10 000 per year is invested

Investment EUR 10,000	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	EUR 510	EUR 2,100
Impact on return (RIY) per year	5.1%	3.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 10.14% before costs and 7.13% after costs.

We may share costs with the person selling the Product to you in order to cover the services they provide to you. If so, this person will inform you of the amount.

Composition of Costs

Investment EUR 10,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 3.00% The impact of the costs you pay when entering your investment. This is the maximum you will pay and you could pay less. These costs are already included in the price you pay.	EUR 300
Exit costs	We do not charge an exit fee for this Product (but the person selling the Product may do).	EUR 0
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	1.94% of the value of your investment per year. This figure is based on actual or estimated costs.	EUR 194
Transaction costs	0.25% of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	EUR 25
Incidental costs taken under specific conditions		
Performance fees and carried interest	Benchmark Model with a 10% performance fee rate	EUR 0

This table shows the impact the different costs have on the investment return you might get back at the end of the recommended holding period and the meaning of the different cost categories.

If you invest in this Product in the context of a life insurance contract or capitalisation contract, this document does not take into account the fees relating to this contract.

How long should I hold it and can I take the money out early ?
